

**W**A INTERNATIONAL, ESTABLISHED in Dubai 1993, has built its interior design consultancy with a firm client base of top hotel and resort brands that extends far beyond Dubai and the Middle East. The Park Hyatt Zanzibar is idyllically located on the island of Zanzibar, off the East coast of Africa in the heart of Stone Town, the hotel features an eclectic mix with influences from Arabia, Persia, East Africa and India.

A UNESCO World Heritage site, it was the responsibility of the designers to ensure the restoration works of the heritage buildings were done accurately and to ensure a seamless flow from the heritage buildings into the new wing. The challenge was to re-create or re-invent the old and traditional into a modern,

contemporary design. Within the new wing, 57 hotel guestrooms and six additional suites have been created. It also encompasses the library, bar, restaurant and impressive function room.

The interiors feature high ceilings, large fans and cool marble floors providing an inviting welcome from the warm and humid conditions of Zanzibar. The selected furniture is evident of the island's strong ties and influences from India and Arabia. Every aspect of the interior design has been carefully detailed, from the intricate ceilings to the carved doors and mirror frames, the colour palette reflects the beauty of the nature of the island, cool colours and ethnic fabrics provide the highlights to a tonal interior canvas.
